Without each of them, my achievements would not be possible or enjoyable. I also know that my parents paved the way planting, in their children, a strong work ethic and emphasis on serving others. I thank the PT Faculty at the University of South Alabama over these 25 years, who mentored me and provided 25 stretching years with opportunities to grow, to serve, and to flourish. Finally I recognize all my dear PT colleagues in Neurology, Education and the Alabama Chapter, and Pediatrics who have encouraged me to step up, and by God's grace, be more than I could be myself*."
