TARGET AUDIENCE

This program will be of particular interest to obstetricians and gynecologists, family medicine physicians, ARNPs, PAs, CNMs, nursing professionals, social workers, and other healthcare team members interested in the healthcare of women and newborns.

OBJECTIVES

This educational activity was developed in response to needs of healthcare providers in the fields of obstetrics, gynecology, family medicine, nursing, and social work from previous course evaluations, government guidelines, American College of Obstetrics and Gynecology (ACOG), and as identified by the USA Health Department of Obstetrics and Gynecology.

At the conclusion of this activity, the healthcare team will be able to:

1. Incorporate guidelines based on ACOG criteria for practice management into clinical practice to improve obstetrical care.

2. Evaluate information as presented to incorporate recommended best practice into the women's healthcare team.

3. Outline and promote methods to facilitate collaboration within multiple healthcare disciplines and healthcare systems in order to maximize health promotion of patients and families.
