Field Trip # 21	**Setting up a web server**
Developed by:	Keith Lynn
Subject:	Setting up a web server
Short description:	The students will learn to setup the Apache webserver & Tomcat servlet container locally.
Educational Level:	9^{th} – 12^{th} Grade
Field trip type:	Lecture with Activity
Educational Outcomes:	The student will be able to: • Setup the Apache web server to server pages • Install php & create php pages • Setup the Tomcat servlet container • Configure Apache so it forwards requests for servlets to Tomcat
Notes to instructor:	The Apache web server, php, & Tomcat are free downloads. Recommended: install ahead of time or create a virtual machine with the software ready; recommend the instructor have some pages ready that involve html, php, & servlets to demonstrate.
