Alt F4

FIRE SAFETY GAMES

CIS 497 SENIOR PROJECT SPRING 2019

SOUTH ALABAMA JAGUARS™

PROJECT DESCRIPTION

Alt+F4 is developing four web-based video games to help train kids in fire safety, while also creating a memorable, immersive environment for the children involved in playing the games. The project will hopefully solve the client's problem of providing an entertaining video games embedded in the Semmes Fire Department website that will aware kids about the dangers of fire and the precautionary steps of action to do in situations with fire.

JOSHUA MAGNUSSON
