The University of South Alabama established the Center for Archaeological Studies in 1992 to conduct archaeological research, teaching, and public service in the north-central Gulf Coast region. The Center promotes the archaeological study and appreciation of the region's prehistoric and historic past; disseminates to the public information about the region's archaeology; and preserves archaeological evidence of the region's past for future study, use, and enjoyment. Under the direction of Dr. Greg Waselkov, the Center's full-time staff of archaeologists have carried out over 1,000 survey and excavation projects during the last twenty years.
